SUSTAINABLE DEVELOPMENT GOALS

GERMAN LANGUAGE MODEL UNITED NATIONS IN 2023

Department of Education

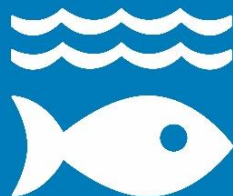

United Nations Association of Australia, Victoria (UNAAV) and the Languages Unit - Department of Education invite VCE German students to participate in the German Language Model United Nations being held on Tuesday 18 July. The assembly is supported by the Association of German Teachers Victoria (AGTV) and will discuss the important topic of *Ocean Conservation*.

A UNAAV Model UN simulates a full-day session of the United Nations General Assembly. The day is conducted entirely in the German language and through role play and debate students have the opportunity to step into the shoes of country ambassadors and use their negotiation and diplomacy skills to express the views of their allocated country. Students present their country's position to the General Assembly, interact with other delegates during the caucus sessions, and move amendments to a Draft Resolution.

Information packs developed by UNAAV and translated by AGTV, provide options to implement key learning areas of the VCE German common areas of study, including links to themes related to the changing world and German-speaking communities. This unique language immersion event is an opportunity for students to learn about international relations, the UN system and global issues in an engaging, dynamic environment, while developing their language skills
