Team up with one or two other detectives to tackle your first case!

Scenario Your classmate Frieda is on exchange in Germany. She is traveling around with her host family to experience Karneval in various German-speaking areas and posts some photos and messages online for you. Unfortunately, she has not turned on the location services and the time difference means the dates are unclear.

Task Can you solve the mystery of when and where Frieda is in Europe?

There are three key questions. Provide evidence for your answers based on clues in the posts and your research.

1. Which of these towns and cities does Frieda visit?

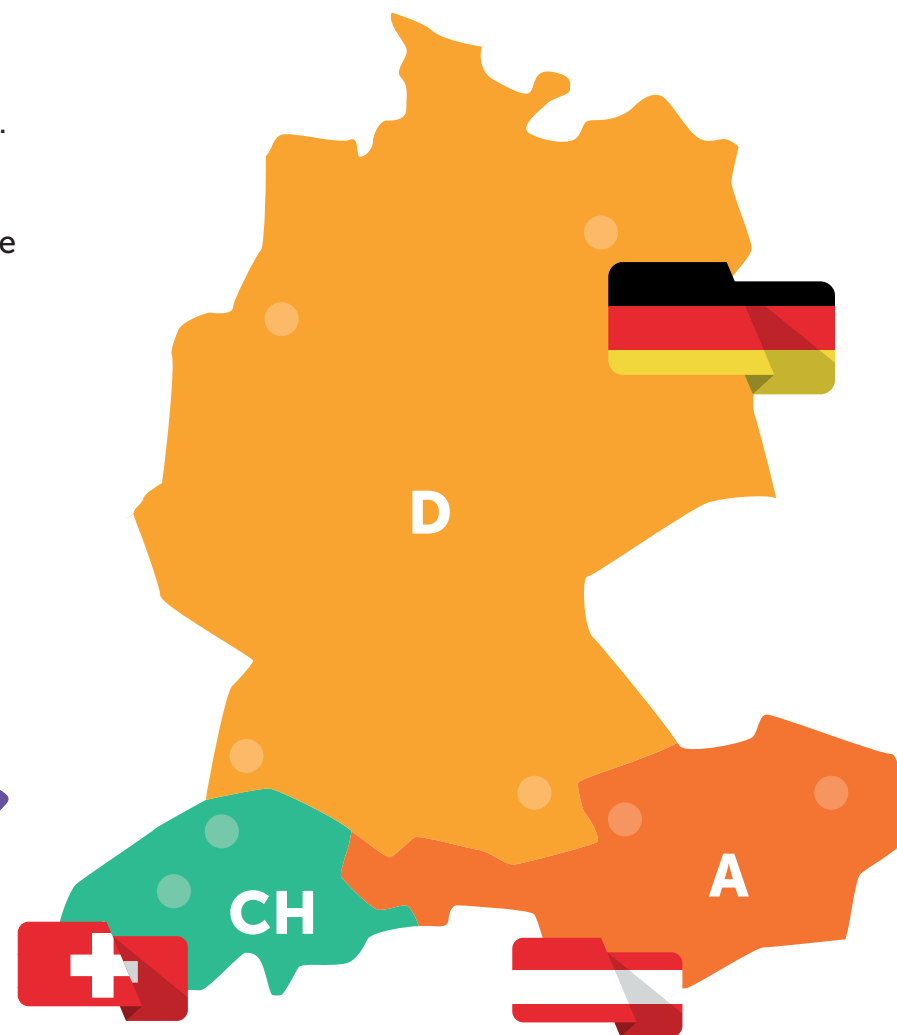

- München
- Berlin
- Basel
- Bern
- Freiburg im Breisgau
- Wien
- Köln
- Salzburg

2. When does she visit each place and what is culturally significant about this day?

3. How do you know? Provide evidence from the posts.
